Summit Indonesia's Highest Volcano & Discover a
Mystical Blue Lake

THE KERINCI SUMMIT & DANAU KACO EXPEDITION

This six-day expedition journeys into the highlands of Sumatra, combining Indonesia's highest volcano with one of its most mystical natural landmarks.

Designed for active travelers, this expedition takes you deep into Kerinci Seblat National Park—through tropical rainforest, high-altitude camps, and a sunrise summit ascent at 3,805 metres above sea level. The journey concludes at Danau Kaco, a hidden blue lake revered for its clarity and tranquillity, before returning to Padang in comfort. Guided by experienced mountain crews and supported by carefully planned logistics, this expedition balances challenge, safety, and reward.
